

AMENDMENT TO THE SPECIFICATION

Please amend the paragraph beginning on Page 8, line 23 and ending on Page 8, line 28 as follows:

Preferably the transponder 9 and/or the safety means 2 correspond with each other and/or are programmable in order to authorize a user or a group of users. The transponder 9 and/or the safety means 2 communicate with each other and/or are preferably programmable on a wireless basis, more preferably based on a bidirectional wireless signal transmission, even more preferably based on a Challenge response algorithm, even more preferably with a magnetic frequency of approximately 25kHz or by ~~blue-tooth~~ blue tooth@ wireless protocol for exchanging data over short distances interfaces.
